DETAILED ACTION

Note: This action will not be may a final rejection because the prior art reference

Marcussen was not provided in the previous office action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-6, 12 and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Delmore, as set forth in the previous office action.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3764

Claims 7-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Delmore in view of Malloui, as set forth in the previous office action.

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Delmore in view of Flam, as set forth in the previous office action.

Claims 11, 13-14, 16 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Delmore in view of Dobos, as set forth in the previous office action.

Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over the references as applied to claim 13 above, and further in view of Marcussen, as set forth in the previous office action.

Allowable Subject Matter

Claims 18-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
